Al Barari Wins Best Real Estate Project (Luxury Residential) At Gulf's Premier Real Estate Awards

Select Language Powered by Google Translate

Al Barari was presented with the Best Real Estate Project (Luxury Residential) award by His Excellency Sultan Butti bin [advertisement info](#) Mejren, Director General of Dubai Land Department at the region's first Gulf Real Estate Awards on April 17. Al Barari was honoured in front of nearly 300 real estate leaders at the largest and most prestigious real estate gathering in the region.

"We are very proud of this award and achievement. What we have achieved came from the heart of passionate, perfectionist and loving people." says Zaal Mohamed Zaal, Chairman of Al Barari.

Al Barari was up against the Gulf region's finest real estate organisations competing for a total of 21 awards. Over 100 entries were whittled down to a few dozen finalists, each of whom having to present their case in person to a panel of judges the day before the awards. The unique judging process not only ensured greater transparency, the open presentation sessions of the finalists also offered a rare insight into how the industry's finest are achieving success and driving innovation.

Mark Hamill, Managing Director of Awards International UAE, says: "Having a fully transparent awards process is essential for all our events - knowing you've beaten the best on merit alone does wonders for individuals and companies. Along with their award, our winners take home huge amounts of credibility when you take into account the high volume and quality of entries we received."

First envisioned by Emirati businessman Zaal Mohamed Zaal in 2005, Al Barari, literally meaning wilderness in Arabic, was designed to be a true desert oasis. Sixty percent of the development is made up of green space that envelopes 189 Al Barari residences and bespoke luxury villas of The Reserve. Ashjar, a collection of 120 (Phase 1) elegant apartments available in three distinctive categories, Seventh Heaven, an exceptional collection of 157 homes including exclusive duplexes, penthouses, villa size apartments and garden homes, and The Nest, a collection of 55 four bedroom family-style villas, are currently under development. The estate features its own health club, Body Language and award-winning signature restaurant, The Farm as well as Heart & Soul spa and wellness. A total of seven themed gardens with over 5.4 km of naturally landscaped lakes, freshwater streams, cascades and waterways make Al Barari the lowest density development in the UAE and more akin to a botanical garden than a residential community. Garden maintenance and landscaping services are provided onsite by Al Barari's green arm, Green Works.
